ADDITIVES -AXLE

Limited Slip Axle Lubricant

ACDelco Limited Slip Axle Lubricant Additive can help protect against improperly lubricated rear axles that can cause damaging friction and excessive noise. Specially formulated to reduce differential temperature, prevent rust, and extend the life of clutches and gears

High quality product reduces friction and noise in the rear axle

PART # [992694](#)

SIZE 114ML

CS QTY 12

Limited Slip Differential Supplement

ATP AT-210 is a premium limited slip differential additive specifically suited for the unique characteristics of clutch type LSD differentials. This additive can be added to standard gear oil to provide compatibility with LSD units, or used to further enhance gear oil that is already specified for LSD applications. Incorporates synthetics to reduce heat and wear, while improving lock-up characteristics and power delivery, even in higher mileage units. Specifically formulated for limited slip differentials. Incorporates synthetics to reduce heat, protect clutch surfaces and improve performance.

PART # [AT-210](#)

SIZE 114ML

CS QTY 12

Posi-Trac Limited Slip Gear Additive

Posi-Trac Limited Slip Gear Oil Additive is designed to quiet chattering differentials and improve gear oil performance. Quiets noisy gears, mixes with any gear oil, inhibits foaming, and raises gear oil to GL-5. For axles equipped w/ limited slip, posi-traction, or traction equalizers, for use in all domestic & foreign cars & trucks

PART # [742508](#)

SIZE 207ML

CS QTY 12

Diff & Gear Treatment

Diff and Gear Treatment provides improved wear protection against viscosity breakdown in high heat and high demand applications.

BENEFITS: Improves performance levels of GL5 and MIL-PRF2105E lubricants. Reduces gear box noise, heat and friction. Delivers excellent shear stability and wear protection in differentials and gear box. Improves fluidity in cold temperatures, increase lubricant film strength and lowers pour point.

ADDITIVES — CLEANER

ACDelco

Top Engine Chamber Cleaner

ACDelco GM Original Equipment Top Engine Cleaners are designed, engineered, and tested to rigorous standards, and are backed by General Motors. Help keep your engine clean with these top engine cleaners. They can help to remove gum, varnish, and carbon in order to help overall engine functionality. Free up sticky valves or sluggish compression rings easily with this formula of solvents, penetrating agents, and lubricating oils. Clean your engine's cylinders and combustion chambers with these specific serums, to help keep your engine debris free inside and out. GM Original Equipment Top Engine Cleaners are the true OE formulas used during the production or validated by General Motors for GM vehicles.

PART # 19355199

SIZE 946ML

CS QTY 6

ACDelco

Fuel System Treatment Cleaner

ACDelco Fuel System Treatment Plus cleans the entire fuel system and restores lost power and performance caused by carbon deposit build-up. It can be used in passenger cars and light duty trucks with gasoline engines. This fuel system cleaner helps clean sulfur corrosion and provides a real defense against harmful sulfur contamination in the fuel. Regular use of this treatment can also prevent fuel gauge malfunction caused by the sulfur components that are found in some gasolines. ACDelco Fuel System Treatment Plus provides protection that has been shown to last for thousands of miles. One ounce of this product will treat one gallon of fuel.

PART # 88865598

SIZE 354ML

CS QTY 12

FORTE
PERFORMANCE SYSTEMS

Direct Injection & Combustion Chamber Cleaner

Gasoline Direct Injection and Combustion Chamber Service is designed to reduce carbon and varnish build up in the combustion chamber area of the engine, providing a cleaner more efficient running engine. Promotes stabilized compression, smoother idle and improved fuel economy by helping to clean the ignition area that if left untreated, will negatively impact the combustion process. Helps decarbonize piston crowns and cylinder heads to remove knock (ping) and engine run-on. Safe for catalytic converters, oxygen sensors and EGR valves.

PART # F003

SIZE 325ML

CS QTY 30

FORTE
PERFORMANCE SYSTEMS

Fuel System Cleaner

Fuel System Cleaner improves fuel efficiency by cleaning and lubricating the fuel system and removing moisture from the fuel tank in all gasoline type engines. Removes intake valve deposits and helps reduce harmful emissions through the use of an intake valve deposit control agent. Contains a fuel stabilizer that prevents fuel from degrading and oxidizing over time. Minimizes fuel tank corrosion by emulsifying and purging any moisture that is present in the vehicle's fuel system. Optimizes injector spray pattern by dispersing fuel varnish and sludge build up on the injector tips. Cleans and lubricates the entire fuel system including fuel injectors and intake valves.

STANADYNE®

Diesel System

Extra strength Lubricity Formula® is ideal for very dry or "winter blend" fuels such as #1 diesel.

- Approved by Original Equipment Manufacturers (OEMs)
- Five times more lubricating content than other Stanadyne additives
- Recommended when excessive wear is a problem
- Cleans and protects injectors and all fuel systems components
- Demulsifies water for filter/separator efficiency
- Fights formation of corrosion and rust
- Keeps fuel fresher
- Contains no alcohol
- Specially formulated for ultra low sulfur diesel

ADDITIVES – DIESEL

STANADYNE®

Diesel System

Stanadyne Performance Formula® protects your diesel engine and restores engine performance. The detergency and cetane improver in Performance Formula will help restore fuel economy, increase horsepower and torque.

Restores/Increase Horsepower: Detergents clean deposits in the injection system resulting in improved combustion, better acceleration, power, and torque

Reduces Fuel Consumption: Independent tests show an average of 4% improvement in MPG and gains up to 9.6%

Cetane Improver: Improves combustion resulting in better engine starting, smooth running, and reduced engine noise

Meets all engine fuel system requirements and will not harm exhaust aftertreatment system.

PART # 38564C	SIZE 237ML	CS QTY 24
PART # 38565C	SIZE 473ML	CS QTY 12

PART # 38568C	SIZE 208L	CS QTY 1

Stanadyne Winter 1000® is economic cold weather protection for your diesel engine.

Fuel Gelling Protection reduces the pour point by as much as 40°F (22° C), depending on base fuel

Reduces ice formation of water in fuel

Contains no alcohol

Specially formulated for ultra low sulfur diesel

Can be used with bio diesel up to B20 (20% bio content)

ADDITIVES — DIESEL

STANADYNE®

Diesel System

Performance Formula® Injector Cleaner is formulated to prevent and eliminate Internal Diesel Injector Deposits (IDID) commonly found in Common Rail and other type of Injectors. These deposits affect injector performance, which results in various engine related issues.

Performance Formula Injector Cleaner is a "One Tank" Clean-Up of concentrated detergents designed to eliminate & prevent internal and external deposits from forming on injectors. The result is restored Engine Performance, Increased Horsepower, and Improved Fuel Economy.

PART # 43562C	SIZE 237ML	CS QTY 24
PART # 43564C	SIZE 473ML	CS QTY 12
PART # 43566C	SIZE 946ML	CS QTY 12

Formulated to provide the same benefits as Performance Formula® All Season (Blue Label) without cold weather protection, Stanadyne Performance Formula® Warm Weather Blend is recommended when ambient temperatures are above 40°F (4° C). Important: To achieve maximum benefits, additives should be used all year, not just during the cold winter months. For ultimate warm weather protection against fuel related issues, use Performance Formula Warm Weather Blend.

PART # 43568C	SIZE 237ML	CS QTY 24
PART # 43570C	SIZE 473ML	CS QTY 12

ADDITIVES – ENGINE

Supercharger Gear Oil

ACDelco GM Original Equipment Supercharger Oils are formulated and tested to rigorous standards, and are backed by General Motors. These supercharger oils are formulated to help keep your vehicle's supercharger bearings working at optimal functionality.

PART # [10953513](#)

SIZE 155ML

CS QTY 12

Premium Oil Change

Boosts Non-Synthetic engine oil toward synthetic performance. Improves Anti-Wear while providing better lubrication during cold start at subzero temperature's.

PART # [F001FS](#)

SIZE 325ML

CS QTY 30

Pre-Lube Engine Oil Flush

Removes oil sludge & varnish. Frees sticky piston rings. Reduces fuel dilution in oil sample. Reduces hydrocarbon & Nox emissions. For gasoline or Diesel engines.

PART # [F005](#)

SIZE 325ML

CS QTY 30

Carbon Blast Injector Flush

Benefits

- Restores lost power
- Cleans fuel rail
- Increases fuel efficiency
- Removes carbon from intake valve
- Cleans fuel injectors
- Cleans gasoline direct injection GDI

PART # [F542](#)

SIZE 475ML

CS QTY 24

ADDITIVES — ENGINE

**kleen
-flo**

Engine Flush

When changing oil, thoroughly clean the engine before using new oil. Prevents hydraulic valves from sticking, thoroughly cleans grease, removes varnish from pistons allowing better oil circulation.

PART # [637](#)

SIZE 350ML

CS QTY 12

**kleen

Rislone Engine Treatment

A Version of “The Legend”

This is it – a version of what made Rislone famous. The cleaner you keep your car’s lubrication system, the better it runs. Our famous, award-winning Rislone Engine Treatment does just that. This product contains high quality penetrating oil, combined with protective engine additives and special cleaning agents.

PART # [34102](#)

SIZE 500ML

CS QTY 12

Motor Treatment

- Cleans fuel injector & carburetor passageways
- Cleans intake valve & chamber deposits
- Lubricates upper cylinders
- Liquefy harmful residues & deposits
- Stabilizes gas & diesel fuels up to 2 years
- For any gas or diesel fuel blend
- For all motor oils, conventional & synthetic

PART # [SF16CA](#)

SIZE 16OZ

CS QTY 12

ADDITIVES — ENGINE

Top Engine Cleaner & Lube

- Cleans & lubricates critical upper engine areas where fuel cleaners can't reach
- Cleans intake valves & camber deposits
- Safe in all types of 2 & 4 stroke gasoline engines

PART # 20026	SIZE 444ML	CS QTY 12

Fuel Treatment

A powerful blend of oils and additives that contain no SOLVENTS. Designed to increase power and fuel mileage and also lower exhaust emissions through a more complete combustion.

PART # 20003	SIZE 946ML	CS QTY 12
PART # 20013	SIZE 3.79L	CS QTY 4
PART # 20020	SIZE 155ML	CS QTY 24

Fuel Stabilizer

Lucas Fuel Stabilizer prevents fuel degradation during storage that causes gum and varnish deposits. It cleans, lubricates and maintains fuel pumps, carburetors, fuel injectors and compression rings.

PART # 20302	SIZE 473ML	CS QTY 12
PART # 20314	SIZE 237ML	CS QTY 24

Fuel Injection Cleaner

- Cleans port/indirect fuel injectors, intake valves, and ports
- Prevents future carbon build-up on port/indirect fuel injectors, intake valves, and ports
- Removes carbon deposits from key engine parts
- Safe for use in turbo and supercharged vehicles

PART # 800001739 **SIZE 177ML** **CS QTY 6**

ADDITIVES — GASOLINE

Fuel/Exhaust/Emissions Cleaner

This formula is engineered to help you clean dirty catalytic converters, clear common OBD check engine light (CEL) codes, pass emissions testing and dramatically improve the overall health and performance of your fuel system. It's one of the most innovative products we've ever developed in our 100+ year history.

PART # [34720](#)

SIZE 500ML

CS QTY 12

Hy-Per Fuel Octane Booster

Rislone Hy-per Fuel Octane Booster increases your fuel's octane rating to stop engine hesitation, knock and ping, while also increasing power and performance. The formula works equally well on classic muscle cars, newer, smaller, harder-working engines, off-road and racing applications. The increased octane allows the engine to run optimum spark timing, which not only creates more power, but also, in many engines, reduces emissions and increases fuel mileage. It's also the best insurance against bad gas you can find.

ADHESIVES—ALL PURPOSE

Super Weather Adhesive

Fast drying, strong, flexible, rubbery adhesive

Withstands vibrations and extreme temperature variation

Good oil and water resistance

PART # [08008](#)

SIZE 147ML

CS QTY 12

General Trim Adhesive

3M™ General Trim Adhesive creates a secure bond when gluing soft materials such as carpet, vinyl, fabric and plastic to hard impervious surfaces. Our clear-drying, high-strength adhesive delivers professional quality results when making automotive repairs. This product is commonly used for automotive restoration work. Once the adhesive sets, the bond offers good heat and water resistance. This trim adhesive comes in an aerosol spray that is easy to aim and control. Simply spray the adhesive onto both surfaces to be joined. The adhesive dries quickly in about one to three minutes, leaving a tacky surface behind. Mate the surfaces to be joined with firm, uniform pressure.

PART # [08088](#)

SIZE 515G

CS QTY 12

Heavy Duty Spray Adhesive

This heavy-duty, high-strength spray adhesive is resistant to water, extreme weather conditions, dries clear, and ideal for use in automotive and marine applications. It bonds quickly to foam, carpet, fabrics, plastics, and rubber, with a full cure time of 24 hours and is for use in temperatures less than 170 Degrees F.

CS QTY 6

ADHESIVES—ANTI-SEIZE

Copper Anti-Seize

Permatex's Copper Anti-Seize Lubricant is a premium quality copper anti-seize and thread lubricant that may be used to prevent seizing, corrosion and galling where high temperature conditions exist. Copper Anti-Seize Lubricant contains a high percentage of micro-fine copper flakes in a semi-synthetic grease carrier and is fortified with high quality rust and corrosion inhibitors.

PART # 09124	SIZE 454G	CS QTY 6
PART # 09127	SIZE 226G	CS QTY 6

Anti-Seize Lubricant

Permatex® Anti-Seize Lubricant is a heavy duty, high temperature lubricant that prevents galling, seizing and corrosion during assembly and assures easier disassembly. Also reduces wear in heavy pressure applications. The product contains a refined blend of aluminum, copper and graphite lubricants that can be used on slow moving parts.

PART # 19975	SIZE 4G	CS QTY 24
-------------------------------------	----------------	------------------

Silver Anti-Seize

A highly refined blend of aluminum, copper and graphite
Prevents galling during assembly
Enables easier disassembly of parts exposed to high temperatures
Prevents rusting, cold welding and galvanic corrosion between assembled parts

PART # 76762	SIZE 113G	CS QTY 12
PART # 76764	SIZE 454G	CS QTY 10
PART # 76765	SIZE 241G	CS QTY 6

Nickel High-Temp Anti-Seize

Protects metal parts from seizing and galling at temperatures up to 2400 degree
For use with stainless steel, titanium and nickel alloys
Recommended where copper contamination must be avoided
Suggested Applications: Exhaust manifold bolts, exhaust system bolts, muffler clamps and tailpipe assemblies

PART # 77124	SIZE 227G	CS QTY 12

Permatex

Anaerobic 518 Gasket Maker

Permatex Anaerobic Gasket Maker is a noncorrosive gasketing material designed primarily for use on aluminum, iron, and steel flanged mating surfaces. Ideal for on-the-spot and emergency repairs, or when a conventional gasket is unavailable. Fills gaps up to .015" and cures to a solvent-resistant seal that will not tear or decay during service. Parts disassemble easily even after extended service.

Red High Strength Low Viscosity Threadlocker

Permatex High-Strength Threadlocker Red is ideal for heavy-duty applications 3/8" to 1" (10mm to 25mm) Red threadlocker is well-suited for permanently locking studs and press fits. Threadlocker RED adds 3,000 PSI holding power on slip and press fit assemblies, and replaces set screws and snap rings. Permatex's Threadlocker Red locks against vibration loosening. May require heat or special tools for removal.

AIR CONDITIONING—SPECIALTY

PAG Oil

PAG is actually an acronym for Polyalkylene Glycol, and it is a synthetic oil used in A/C systems to lubricate the compressor. Most newer model cars use PAG as the lubricant in the A/C system.

When people refer to PAG oil they typically refer to it in the following terms: PAG 46, PAG 100, or PAG 150. The numbers represent the viscosity of the lubricant just as “10W-30” or “10W-40” represent the viscosity of motor oil.

Ester Oil

Ester oil is a synthetic lubricant. Ester molecules are very stable and have excellent performance characteristics in both high and low temperatures.

It is typically used in systems that have been retrofitted to R-134a, and it comes in only one viscosity, so it does not contain the viscosity numbers associated with PAG oils. It is used in retrofit systems primarily because its chemical properties do not change when it comes into contact with the trace amounts of chlorofluorocarbons that are found in retrofitted R12 systems.

BRAKE—LUBRICANT

Silicone Brake Lubricant

ACDelco Silicone Brake Lubricant is a compound containing specially selected premium silicone oils and thickened with high levels of polytetrafluoroethylene (PTFE). This brake lubricant combines the temperature, corrosion, and water resistance typical of silicone compounds, with the outstanding lubrication properties of PTFE. These lubrication properties lower brake friction and slip-stick. ACDelco Silicone Brake Lubricant is compatible with most rubber and plastic compounds.

PART # 88862496	SIZE 227G	CS QTY 12
---------------------------------	-----------	-----------

Brake Lubricant

Sil-Glyde Brake Lubricant is a silicone-based brake lubricant recommended for the entire brake assembly, is compatible with plastic and rubber (EPDM & Nitrile), and dampens vibrations between contact points. It is moisture-proof and heat resistant to over 425 degrees F (218 degrees C), which means it won't burn-off like other brake noise products. Its long-lasting properties provide a noise-free brake installation and easy disassembly. Using AGS brake lubricant is one of the keys to eliminating disc brake squeal and protecting parts from corrosion and rust.

PART # BK-4	SIZE 113G	CS QTY 12
PART # BK-8	SIZE 226G	CS QTY 12

BRAKE—LUBRICANT

Disc Brake Quiet

Disc Brake Quiet forms a water resistant, high-temperature film that absorbs noise while quieting squeaks & squeals. Specially formulated to dampen the vibrations that cause brake noise. For use on the back of non-shimmed disc pads.

PART # [75017](#)

Protectant Wipes

The surfaces of your vehicle take a beating from harmful elements like UV rays. As a leader in car care, we've developed the latest breakthrough technology for our Matte Finish Protectant Wipes. Scientifically engineered, this product helps reveal the natural appearance of vehicle surfaces, including those not traditionally treated with protectant. Our innovative silicone-free formula delivers Armor All's trusted protection without streaks or greasy residue.

CS QTY 10

Pyroplex Red #2

Castrol Pyroplex Red is a high temperature EP, lithium complex grease that meets the highest performance standards of automotive (particularly Disc Brake Wheel Bearings) fleet, industrial, farm, and off highway equipment operations. Formulated from selected base stock and containing unique oxidation inhibitors, this grease possesses outstanding thermal stability. In selecting the extreme pressure and anti-wear package, great care was exercised in choosing only additives that had temperature characteristics similar to the grease itself.

PART # [01053-19](#)

SIZE 400G

CS QTY 10

Pyroplex ES2

Castrol Pyroplex Protection ES is specially formulated synthetic lithium complex grease designed for extended service performance in challenging on-highway environments. Its unique inhibitor additive system provides maximum protection against rust, oxidation and corrosion. When performance is challenged in severe corrosive environments, Castrol Pyroplex Protection ES not only resists rust and corrosion, but provides unmatched protection for moving parts, reducing component wear and promoting longer equipment and lubricant life.

PART # [17110](#) **SIZE 350ML** **CS QTY 12**

RADIATOR—ADDITIVE

Cooling System Flush

Cooling System Flush safely removes rust and scale from the entire cooling system. When deposits form in the cooling system, the engine can lose its ability to effectively cool off. Cooling System deposit buildup may restrict coolant flow and can cause the system to overheat. New coolant will operate at its maximum potential when the cooling system has been completely cleaned providing the vehicle to efficiently operate at the designed temperature.

PART # [F007](#) **SIZE 500ML** **CS QTY 28**

RADIATOR—ADDITIVE

Cooling System Conditioner

Cooling System Conditioner lubricates and protects the cooling system against corrosion by restoring the critical coolant balance and pH level. A vehicle's coolant can degrade over time creating an environment that is incapable of properly protecting the components in the cooling system. As the coolant becomes more acidic, it becomes corrosive and if left untreated can create leaks and overheating within the cooling system.

PART # [F010](#)

SIZE 500ML

CS QTY 28
